Good luck on your exam!

AWS Compute Optimizer

AWS Compute Optimizer analyzes the current configuration of your AWS compute resources, and their utilization metrics from Amazon CloudWatch over a period of the last 14 days.

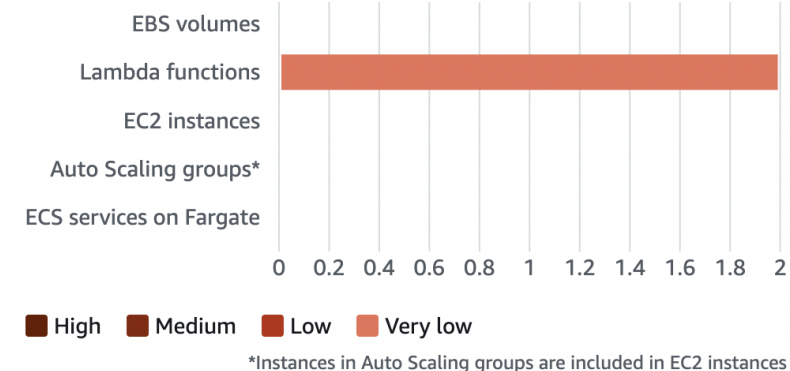

It can recommend for:

- EC2 Instance
- Auto Scaling Groups (ASGs)
- EBS Volumes
- Lambda functions
- ECS services on Fargate
- SQL Server Licenses

It will recommend **specific configuration changes** to save money:

Current monthly price Info	Recommended volume type Info	Recommended size Info
\$2.400 per month	General Purpose SSD (gp3)	30 GiB

Performance risk by resource type

Savings opportunity [Info](#)

Percent

10.34%

Total estimated monthly savings

\$2.61 USD

Estimated monthly savings per resource type (USD)
