AWS Data Exchange

AWS Data Exchange is a catalogue of third-party datasets. You can download for free subscribe or purchase datasets.
Eg. COVID-19 Foot Traffic Data, IMDB TV and Movie data, Historical Weather Data

- Upload your own data sets for sale in the AWS Marketplace
- **Data grants** allow you to control access to your datasets.

Data sets pricing can be:

- Free
- Upfront Commitment
- Usage based

A screenshot of the AWS Data Exchange interface. On the left, a 'Refine results' sidebar lists categories like Automotive Data (141), Environmental Data (114), Financial Services Data (1,107), Gaming Data (24), Healthcare & Life Sciences Data (565), Manufacturing Data (137), Media & Entertainment Data (324), Public Sector Data (525), Resources Data (531), and Retail, Location & Marketing Data (1,305). The main area is titled 'Product catalog' and includes a search bar, a dropdown for 'All data products (4,359 results) showing 1 - 36', and a 'Sort by most relevant' dropdown. Two product cards are visible: 'Flood Factor® - First Street US Climate Flood Risk Data - Aggregate' by First Street Foundation, which is free with a 12-month subscription available, and 'COVID-19 - World Confirmed Deaths, Testing, and Vaccinations' by Rearc, which is also free with a 12-month subscription available.

Open Data on AWS program is a collection of over 300 free, publicly available data sets.
